

CIRCULATION

VOLUME XLVIII

JULY-DECEMBER, 1973

VOLUME AUTHOR INDEX

NOTE

Some pages are numbered "Page 1" etc. and may be found in the rear advertising section. Some other pages in the rear advertising section have advertising page numbers: "49" etc. Intersociety reports, also in the rear advertising section, are numbered "A-300" etc.

CIRCULATION

VOLUME XLVIII

JULY-DECEMBER, 1973

SUBJECT INDEX

A

- Aberrancy**
His bundle ECG during bidirectional tachycardia, 32
rate dependent, 714
- Aberrant conduction**
left anterior hemiblock obscuring diagnosis of RBBB, 298
ventricular origin of bidirectional tachycardia, 897
- Abortions**
coronary embolism in fetus, 890
- Acid mucopolysaccharides**
sudden death and familial occurrence of mid-systolic click, late systolic murmur syndrome, 1128
- Acidosis**
function of cardiac receptors, 463
- Action potentials**
His bundle electrograms correlated with intracellular recordings, 753
- Adams-Stokes**
left anterior hemiblock obscuring diagnosis of RBBB, 298
- Adolescents**
quantitation of normal Frank and McFee-Parungao orthogonal ECG, 735
- Afferent fibers**
function of cardiac receptors, 463
- Age differences**
mitral valvuloplasty, 357
- Alcoholic cardiomyopathy**
depression of myocardial contractility with low doses of ethanol in normal man, 378
- Aldosteronism, primary**
spironolactone as nonspecific treatment for, 491
- Alternate beats**
Wenckebach periods of alternate beats, 41
- Amyl nitrite**
properties of timolol, 118
- Anatomy**
conus, 406
Functional Anatomy of the Circulation to the Lower Extremities (Conrad), 221
prolapsing aortic valve and aortic regurgitation associated with VSD, 1028
- Anemia**
chronic hemolysis following mitral valve replacement, 823
- Aneurysms**
dissecting
diagnosis of aortic root dissection by echocardiography, 506
mycotic
of thoracic aorta complicating coarctation, 195
myocardial
detection of LV asynergy by echocardiography, 263
of thoracic aorta complicating coarctation, 195
ventricular
congenital diverticulum of LV associated with hypoplastic RV and VSD, 1135
diminution and closure of VSD after pulmonary artery banding, 847
LV wall motion assessment, 1043
- Angina pectoris**
arterial pressure and ECG in unrestricted patients with, 125
comparative evaluation of long-acting nitrates, 519
effect of propranolol on myocardial oxygen consumption, 1173
exercise stress testing in evaluating aorto-coronary bypass surgery, 141
myocardial revascularization and ventricular performance, 450
new approach to coronary heart disease, 229
nitrates for prophylactic treatment of, 917
papilloma of cusp of aortic valve; report of sudden death, 213
platelet function studies in coronary artery disease, 1194
reproducibility of multi-stage near maximal treadmill exercise tolerance test in, 346
unstable (preinfarction)
evaluating results of cardiac surgery, 232
ten year follow-up, 331
vitamin E and heart disease, 179
- Angiocardiography**
detection of LV asynergy by echocardiography, 263
evaluation of prosthetic cardiac valves, 882
hemodynamics in ruptured chordae tendineae and chronic rheumatic mitral regurgitation, 1288
persistent common atrioventricular canal, 416
single plane vs. biplane studies in coronary artery disease, 673
- Angiography**
appraisal of distal vessel suitability for bypass graft surgery, 202
changes in aorto-coronary vein grafts, 633
left transaxillary selective, 1321
- Animal studies**
dogs
abnormal motion of interventricular septum, 86
Cesium-129 myocardial scintigraphy to detect MI, 1242
effects of atrial pacing on orthotopically transplanted canine heart, 386
electrophysiology of acute myocardial ischemia, 971
His bundle electrograms correlated with intracellular recordings, 753

- spironolactone for primary aldosteronism, 491

Saphenous vein bypass grafts

- angiographic changes, 633
- evaluating results, of, 232
- myocardial revascularization and ventricular performance, 450
- preinfarctional angina, ten year follow-up, 331

Scanning techniques

- multiscan echocardiography, 1066, 1075

Scintigraphy

- Cesium-129 myocardial scintigraphy to detect MI, 1242
- myocardial perfusion in transmural infarction, 924

Segmental shortening

- effects of atrial pacing on orthotopically transplanted canine heart, 386

Seizures

- BBB and transient neurologic symptoms, 322

Seldinger techniques

- coronary arteriography by percutaneous left transaxillary approach using preshaped catheters, 1321

Serum glutamic oxalacetic transaminase

- enzyme testing for detection of MI following direct coronary surgery, 135

Sex differences

- mitral valvuloplasty, 357

Shock

- cardiogenic
 - pathophysiology of, 588
 - prognostic value of ST-elevation, 338

vasodilator therapy in AMI, 1183

relationship between pulmonary artery pressure and catheter position, 452

Shunts and shunting

- left-to-right
 - mitral valve and double outlet RV, 904
 - pulmonary valvar pressure gradients, 65

Sick sinus syndrome

- effects of atropine on overdrive suppression, 911
- effects of digitalis on sinoatrial automaticity and AV conduction, 1201
- treatment, 671

Sinoatrial node

- effects of digitalis on sinoatrial automaticity and A-V conduction, 1201
- histopathology of heart block complicating AMI, 1252

Sinus beats

- ventricular fibrillation induced by conducted sinus or supraventricular beats, 438

Sinus bradycardia

- effects of digitalis on sinoatrial automaticity and A-V conduction, 1201

Sinus impulse

- paroxysmal supraventricular tachycardia and, 910

Sinus of Valsalva

- prolapsing aortic valve and aortic regurgitation associated with VSD, 1028

Sleep

- and ventricular premature beats, 691

Smoking

- acute effects on platelet function, 619, 1194
- carbon monoxide, smoking and CVD, 1167, 1169
- coronary heart disease epidemiology, 185, 1169
- platelet function studies in coronary artery disease, 1194
- possible link between arterial thrombosis and, 619
- risk factors for coronary heart disease, 950

Sodium regulation, 491

- Recent Advances in Renal Physiology* (Wirz and Spinelli eds.), 222

Spironolactone

- nonspecific treatment for primary aldosteronism, 491

Spondylitis

- and aortic regurgitation, 1014

Staphylococcus

- development of rheumatic fever and, 9
- prosthetic valve endocarditis, 365

Starr-Edwards prostheses

- comparison of frame-mounted aortic homograft and composite seat Starr-Edwards, 823
- echocardiographic assessment of LV outflow width in selection of mitral valve prosthesis, 1208

Stellate ganglion stimulation

- ventricular overdrive suppression, 313

Stimulation experiments

- rate-dependency of function block, 526

Streptococcal infections

- development of rheumatic fever, 9
- prosthetic valve endocarditis, 365

Streptolysin O

- development of rheumatic fever and, 9

Stress tests

- diagnosis of obstructive coronary disease by maximal exercise and atrial pacing, 1227
- and induction of intravascular platelet aggregation in heart, 164

Stroke volume

- effects of atrial pacing on orthotopically transplanted canine heart, 386
- LV pressure-volume during ischemia, 775
- maximal oxygen intake in healed MI, 943
- vasodilator agents in mitral regurgitation, 684

Subaortic stenosis

- persistent common AV canal, 416

Subvalvar apparatus

- effects of vasodilator agents in mitral regurgitation due to dysfunction of, 684

Sudden death

- coronary embolism in fetus, 890
- ectopic ventricular beats and, 910

- and familial occurrence of mid-systolic click, late systolic murmur syndrome, 1128
 - fibroma compressing His bundle, 428
 - papilloma of cusp of aortic valve, 213
 - Pickwickian syndrome and, 1311
 - slow ventricular activation in AMI, 702
 - Superoxide dismutase**

THE CORONARY DRUG PROJECT

No. 1 (March)

Study Personnel	I-1
Membership of CDP Committees	I-6
Introduction	I-7
Design and Methods	I-8
2.1 Major Design Features	I-8
2.2 Organizational Structure	I-9
2.3 Treatment Regimens	I-9
2.4 Admission Criteria	I-11
2.5 Sample Size	I-11
2.6 Patient Recruitment	I-12
2.7 Informed Consent	I-13
2.8 Randomization to Treatment	I-13
2.9 Patient Examination Schedule and Procedures	I-13
2.10 Quality Control Procedures	I-16
2.11 Major Response Variables	I-17
2.12 Discontinuation or Dosage Reduction of Study Drug	I-17
2.13 Dropout and Transfer Patients	I-18
2.14 Data Collection and Monitoring of Adherence to Protocol	I-18
2.15 Monitoring of the Treatments for Adverse and Beneficial Effects	I-19
2.16 Natural History Investigations	I-19
2.17 Methodological Investigations	I-19
2.18 Ancillary Studies	I-20
2.19 Meetings of Study Personnel	I-20
2.20 Newsletters	I-20
Baseline Results	I-20
3.1 Description of the Population	I-21
3.2 Interrelationships among Baseline Variables	I-25
Comparability of Treatment Groups at Baseline	I-27
Summary	I-29
References	I-34

(Continued)

Appendices

A. CDP Sample Size Calculation	I-36
B. Information Obtained on CDP Patients	I-37
C. Analytical Procedures of the Central Laboratory	I-38
D. ECG Reading Codes	I-39
E. Classification System for Cause of Death	I-42
F. Diagnostic Criteria for Cardiovascular Events	I-42
G. Correlations Among 52 Baseline Characteristics	I-44
H. Codes Used in Correlation Analysis	I-49
I. Selected CDP Study Forms	I-50

THE UROKINASE PULMONARY EMBOLISM TRIAL

No. 2 (April)

Study Personnel	II-1
Glossary	II-5
Synopsis: Summary, Conclusions and Recommendations	II-7

Detailed Report

I. Background and Development of the Trial	II-13
II. Design of the Trial	II-18
III. Organization and Coordination of the Trial	II-22
IV. Statistical Design and Methods of Data Analysis	II-25
V. Patient Characteristics and Results of Randomization	II-29
VI. Enhancement of Fibrinolysis with Urokinase	II-33
VII. Pulmonary Angiography	II-38
VIII. Perfusion Lung Scanning	II-46
IX. Hemodynamic Results of Therapy	II-51
X. Clinical and Electrocardiographic Observations	II-60
XI. Morbidity and Mortality	II-66
XII. Interrelationships of Pulmonary Angiograms, Lung Scans, Hemodynamic Measurements and Fibrinolytic Findings	II-73
XIII. Associated Clinical and Laboratory Findings	II-81
XIV. Other Observations Related to Pulmonary Embolism and Its Study	II-86

Appendices

Comparison of Adjusted and Unadjusted Endpoint Data	II-92
Subgroup Responses	II-93
Data Forms	II-100
An Angiographic Severity Index for Pulmonary Embolism	II-101
Peter N. Walsh, Richard H. Greenspan, Morris Simon, Allan L. Simon, Thomas H. Hyers, Paul C. Woosley and Christine M. Cole	

CARDIOVASCULAR SURGERY 1972

No. 3 (July)

Foreword	
John Hines Kennedy	III-1
Early and Late Result of Saphenous Vein Graft for Anomalous Origin of Left Coronary Artery from Pulmonary Artery.	
Galal M. El-Said, Witold Ruzyllo, Robert L. Williams, Charles E. Mullins, Grady L. Hallman, Denton A. Cooley, and Dan G. McNamara	III-2

(Continued)

Development of Subaortic Stenosis After Pulmonary Artery Banding. Michael D. Freed, Amnon Rosenthal, William H. Plauth, Jr., and Alexander S. Nadas	III-7
Long-Term Evaluation of Tetralogy Patients with Pulmonary Valvular Insufficiency Resulting from Outflow-Patch Correction Across the Pulmonic Annulus. Ellis L. Jones, C. Richard Conti, Catherine A. Neill, Vincent L. Gott, Robert K. Brawley, and J. Alex Haller, Jr.	III-11
Surgical Treatment of Double-Outlet Left Ventricle: Report of Four Cases. Albert D. Pacifico, John W. Kirklin, L. M. Bargerion, Jr., and Benigno Soto	III-19
Tetralogy of Fallot with Absent Pulmonary Valve: Surgical Considera- tions and Results. Edward G. Stafford, Douglas D. Mair, Dwight C. McGoon, and Gordon K. Danielson	III-24
Lethal Postoperative Infections Following Cardiac Surgery: Review of Four Years' Experience. Richard M. Engelman, Randolph M. Chase, Jr., Arthur D. Boyd, and George E. Reed	III-31
Infective Endocarditis in Drug Addicts: Experiences with Medical and Surgical Treatment. David Y. Graham, George J. Reul, Russell Martin, Jeremy Morton, and John H. Kennedy	III-37
Valve Replacement for Bacterial and Fungal Endocarditis: A Com- parative Study. Joe R. Utley, John Mills, John C. Hutchinson, L. Henry Edmunds, Jr., Richard G. Sanderson, and Benson B. Roe	III-42
Evaluation of Anticoagulant Therapy in Cloth-Covered Prosthetic Valves. O. Wayne Isom, C. David Williams, Emily A. Falk, Frank C. Spencer, and Ephraim Glassman	III-48
Experience with the Bjork-Shiley Prosthetic Valve. Derward Lepley, Jr., C. F. Reuben, Robert J. Flemma, J. H. Huston, John C. Manley, J. Hoffman, and Alfred J. Tector	III-51
Computer-Based Analysis of Preoperative and Postoperative Prog- nostic Factors in 100 Patients with Combined Aortic and Mitral Valve Replacement. David B. Melvin, Paul Tecklenberg, Jefferson F. Hollingsworth, Frederick H. Levine, D. Luke Glancy, Stephen E. Epstein, and Andrew G. Morrow	III-56
Clinical and Pathological Findings in Patients with "Floppy" Valves Treated Surgically. Roxane McKay and Magdi H. Yacoub	III-63
Postoperative Hemodynamic Evaluation of a New Fabric-Covered Ball-Valve Prosthesis. Robert A. O'Rourke, Kirk L. Peterson, Nina S. Braunwald	III-74
Late Complications of Intraoperative Coronary Artery Perfusion. George E. Reed, Frank Spencer, Arthur D. Boyd, Richard M. Engel- man, and Ephraim Glassman	III-80
Local Anticoagulation of Prosthetic Heart Valves. Michael L. Schwartz, Dean Sheldon, Frank Dorman, Perry L. Black- shear, Richard L. Varco, Henry Buchwald, and Demetre M. Nicoloff	III-85
Intra-aortic Balloon Pump Assist for Cardiogenic Shock After Cardio- pulmonary Bypass. Mortimer J. Buckley, Joseph M. Craver, Herman K. Gold, Eldred D. Mundth, Willard M. Daggett, and W. Gerald Austen	III-90

(Continued)

The Role of Angiography in Cardiogenic Shock.	
Robert C. Leinbach, Herman K. Gold, Robert E. Dinsmore, Eldred D. Mundth, Mortimer J. Buckley, W. Gerald Austen, and Charles A. Sanders	III-95
Serial Hemodynamics During Intra-aortic Balloon Counterpulsation for Cardiogenic Shock.	
Ralph B. Dilley, John Ross, Jr., and Eugene F. Bernstein	III-99
Evaluation of Hollow Fiber and Spiral Coil Membrane Oxygenators Designed for Cardiopulmonary Bypass in Infants.	
Robert E. Rawitscher, Robert C. Dutton, and L. Henry Edmunds, Jr.	III-105
Arrhythmias in the Denervated Transplanted Human Heart.	
David K. Berke, Anthony F. Graham, John S. Schroeder, and Donald C. Harrison	III-112
Does Cardiac Transplantation Significantly Prolong Life and Improve Its Quality?	
Anthony F. Graham, John S. Schroeder, Randall B. Griepp, Edward B. Stinson, and Donald C. Harrison	III-116
Complications of Coronary Bypass Surgery.	
Hooshang Bolooki, Leonard S. Sommer, Ali Ghahramani, and Damaio Cunha	III-120
Progression of Coronary Arterial Disease After Aortocoronary Bypass Grafts.	
Martial G. Bourassa, Jacques Lespérance, and Claude Goulet	III-127
Determinants of Survival After Coronary Artery Bypass Surgery.	
John J. Collins, Jr., Lawrence H. Cohn, Edmund H. Sonnenblick, Michael V. Herman, Peter F. Cohn, and Richard Gorlin	III-132
Recognition of Postoperative Acute Myocardial Infarction: Application of Isoenzyme Techniques.	
Sewell H. Dixon, Jr., Lee E. Limbird, Charles R. Roe, Galen S. Wagner, H. Newland Oldham, Jr., and David C. Sabiston, Jr.	III-137
Functional Evaluation of Coronary Bypass Surgery by Exercise Testing and Oxygen Consumption.	
Timothy E. Guiney, Joel J. Rubenstein, Charles A. Sanders, and Eldred D. Mundth	III-141
Coronary Artery Bypass.	
Robert J. Hall, John T. Dawson, Denton A. Cooley, Grady L. Hallman, Don C. Wukasch, and Efrain Garcia	III-146
Experience with Emergency Aortocoronary Bypass Grafts in the Presence of Acute Myocardial Infarction.	
Wilbert J. Keon, Pierre Bedard, Kanakaiahnavara R. Shankar, S. Zaffar Abbas, Alfredo Nino, and Frank Berkman	III-151
Ultrasound Assessment of Left Ventricular Function Following Aortocoronary Saphenous Vein Bypass Grafting.	
Joseph Kisslo, Steven Wolfson, Allan Ross, Richard Pasternak, Graeme Hammond, and Lawrence S. Cohen	III-156
Internal Mammary Artery Grafts Without Optical Assistance: Clinical and Angiographic Analysis of 175 Consecutive Cases.	
Floyd D. Loop, Nick Spampinato, Wayne Siegel, and Donald B. Effler	III-162
What is the Relationship Between the Response of Angina to Coronary Surgery and Anatomical Success?	
Harvey J. Matlof, Edwin L. Alderman, Lewis Wexler, Norman E. Shumway, and Donald C. Harrison	III-168
Combined One-Stage Coronary Artery and Valvular Surgery: A Clinical Evaluation.	
Gideon Merin, Gordon K. Danielson, Robert B. Wallace, Barry D. Rutherford, and James R. Pluth	III-173

(Continued)

Emergency Coronary Artery Bypass Grafts in the Treatment of Myocardial Infarction.	
George J. Reul, Jr., George C. Morris, Jr., Jimmy F. Howell, E. Stanley Crawford, and Wolf J. Stelter	III-177
Vein Graft Surgery for Coronary Artery Disease: Survival and Angiographic Results in 1,000 Patients.	
William C. Sheldon, Gustavo Rincon, Donald B. Effler, William L. Proudfit, and F. Mason Sones, Jr.	III-184
Direct Anastomosis of the Bilateral Internal Mammary Artery to the Distal Coronary Artery, Without a Magnifier, for Severe Diffuse Coronary Atherosclerosis	
Akio Suzuki, Earle B. Kay, and James D. Hardy	III-190
Lesions Observed in Arterial Autogenous Vein Grafts: Light and Electron Microscopic Evaluation.	
Michael Jones, David M. Conkle, Victor J. Ferrans, William C. Roberts, Frederick H. Levine, David B. Melvin, and Edward B. Stinson	III-198
New Arteriographic and Surgical Techniques for Vertebral Arteriopathies.	
S. Adam Wesolowski, Edward Gillie, James D. McMahon, Delfin S. Santos, J. Robert Cali, and Hatsuzo Uchida	III-211

Abstracts for the 46th Scientific Sessions,
Scientific Sessions for Nurses,
27th Annual Meeting,
Council on Arteriosclerosis
 No. 4 (October)

SUPPLEMENTS TO CIRCULATION

VOLUMES XLVII AND XLVIII

JANUARY-DECEMBER, 1973

Indexes to Cardiovascular Surgery 1972, Supplement III July 1973 and ABSTRACTS, AHA 46th Scientific Sessions, Supplement IV, October 1973 are included in those issues.

SUPPLEMENT SUBJECT INDEX

A

- Admission criteria**
 - Coronary Drug Project, I-11
 - admission form, I-51
- Alkaline phosphatase**
 - analytical procedures, I-38
- Ancillary studies**
 - Coronary Drug Project, I-19
- Aneurysms**
 - diagnosis of arterial, I-44
- Angina pectoris**
 - diagnosis of, I-43
- Angiographic severity index for pulmonary embolism**
 - analysis of angiograms, II-102
 - baseline (preinfusion) observations, II-104
 - computer analysis, II-103
 - objective analysis, II-102
 - quantitation of abnormalities, II-102
 - specific criteria for grading abnormalities, II-102
 - subjective evaluation, II-102
 - treatment differences, II-105
 - angiographic technique, II-101
 - materials and methods, II-101
 - statistical methods, II-102
- Angiography, pulmonary, II-38**
 - anatomical location of pulmonary emboli, II-42
 - angiogram analysis, II-38
 - clinical shock, II-41
 - comparison of obstructive and nonobstructive emboli, II-42
 - correlation with hemodynamic measurements, II-75
 - correlation with lung scanning, II-73
 - definition, II-5
 - factors influencing improvement, II-41
 - interobserver variations, II-40
 - materials and methods, II-38
 - mean angiographic preinfusion severity and change in severity, II-39
 - objective analysis, II-40
 - pulmonary embolism, II-87
 - severity index for pulmonary embolism, II-101
 - subgroup responses, II-93
 - subjective analysis, II-40
 - unsatisfactory angiograms, II-39
- Annual follow-up examination**
 - form, I-65
- Anticoagulation**
 - pulmonary embolism, II-89
- Appointment schedule**
 - CDP form, I-76
- Arrhythmias, I-41**
 - diagnosis of, I-43
- Atrial fibrillation**
 - diagnosis of, I-43

B

- Baseline characteristics**
 - correlations among, I-44
 - codes used in correlation analysis, I-49

Baseline results

- comparability of treatment groups, I-27
- Coronary Drug Project, I-20
- description of the population, I-21
- information obtained on CDP patients, I-37
- interrelationship among variables, I-25

Bilirubin

- analytical procedures, I-38
- Bleeding complications, II-66**
 - hemodynamic data, II-58

C

Cardiomegaly

- diagnosis of, I-44

Central Laboratory

- analytical procedures, I-38
- Coronary Drug Project, I-5
- determinations, I-15
- quality control procedures, I-16

Cholesterol

- analytical procedures, I-38

Clinical centers

- Coronary Drug Project, I-1

Clinical studies

- age and sex differences in initial blood pressure and angiographic massiveness of embolism, II-83
- Coronary Drug Project, I-1
- laboratory findings and, II-81
- predisposing factors to angiographic massiveness of embolism, II-84
- preinfusion findings and, II-81
- related to pulmonary embolism, II-86
- relation of angiographic, lung scanning and hemodynamic data, II-81
- Urokinase-Pulmonary Embolism Trial, II-61

Clofibrate

- analytical procedures, I-38
- treatment regimen in CDP, I-10

Complications

- urokinase therapy, II-66
 - bleeding, II-66
 - recurrent pulmonary embolism, II-68

Congestive heart failure

- diagnosis of, I-43

Consent of patient, I-13

- form, I-75

Coordinating Center

- data collection and monitoring of adherence to protocol, I-18
- monitoring of treatments for adverse and beneficial effects, I-19

Coronary Drug Project, I-1

- analytical procedures of Central Laboratory, I-38
 - alkaline phosphatase, serum, I-38
 - bilirubin, serum, I-38
 - cholesterol, serum, I-38
 - clofibrate, urine, I-38
 - creatine phosphokinase (CPK), serum, I-39
 - glucose, plasma, I-39
 - glutamic oxaloacetic transaminase (SCOT), serum, I-39
 - nicotinic acid, urine, I-39

- potassium and sodium, serum, I-39
- protein-bound iodine, serum, I-39
- triglycerides, serum, I-39
- urea nitrogen, plasma, I-39
- uric acid, serum, I-39
- baseline results, I-20
 - comparability of treatment groups, I-27
 - description of population, I-21
 - distribution CHD risk factors, I-26
 - distributions of baseline ECG characteristics, I-24
 - distributions of demographic characteristics, I-21
 - distributions of other laboratory and clinical measurements, I-28
 - distributions of qualifying ECG findings and combined baseline and qualifying ECG results, I-25
 - distributions of variable relating to history and status of CHD at baseline, I-22
 - interrelationship among variable, I-25
 - percentage of patients with selected baseline findings, by treatment, I-32
 - prevalence of various clinical findings at baseline, I-29
 - variables with correlation coefficients, I-30
- classification system for cause of death, I-42
 - immediate cause of death, I-42
 - underlying cause of death, I-42
- collaborative clinical trial, I-29
- correlations among 52 baseline characteristics, I-44
- codes used in correlation analysis, I-49
- design and methods, I-8
 - admission criteria, I-11
 - ancillary studies, I-20
 - data collection and monitoring of adherence to protocol, I-18
 - discontinuation or dosage reduction of study drug, I-17
 - dropout and transfer patients, I-18
 - informed consent, I-13
 - form, I-75
 - major design features, I-8
 - major response variables, I-17
 - meetings of study personnel, I-20
 - methodological investigations, I-19
 - monitoring of treatments for adverse and beneficial effects, I-19
 - natural history investigations, I-19
 - newsletters, I-20
 - organizational structure, I-9
 - patient examination schedule and procedures, I-13, I-37
 - baseline visits, I-14, I-37
 - central laboratory determinations, I-15
 - chest x-ray, I-16
 - electrocardiograms, I-15
 - examination schedule, I-14
 - final visits, I-14
 - follow-up visits, I-14, I-37, I-65
 - glucose challenge, I-15
 - preparation for visits, I-15
 - prescription adjustment visits, I-14
 - prescription and adherence records, I-16
 - visual acuity, I-16
 - vital signs and physical measurements, I-16, I-37
- patient recruitment, I-12
- quality control procedures, I-16
 - Central Laboratory, I-16
 - ECG Reading Center, I-17
 - surveillance of drug center, I-16
- randomization to treatment, I-13
- sample size, I-11
- treatment regimens, I-9
 - dextrothyroxine, I-10
 - estrogens, I-10
 - lactose placebo, I-11
 - nicotinic acid, I-11
- diagnostic criteria for cardiovascular events, I-42
 - acute coronary insufficiency, I-43
 - angina pectoris, I-43
 - arterial aneurysm, I-44
 - atrial fibrillation, I-44
 - cardiomegaly, I-44
 - congestive heart failure, I-43
 - intermittent cerebral ischemic attacks, I-43
 - intermittent claudication, I-43
 - other arrhythmias, I-44
 - peripheral arterial emboli, I-44
 - peripheral arterial occlusive disease, I-43
 - pulmonary embolism, I-43
 - recurrent myocardial infarction, I-42
 - stroke, I-43
 - thrombophlebitis, I-44
- ECG reading codes, I-39
 - A-V conduction defect, I-41
 - arrhythmias, I-41
 - high amplitude R waves, I-40
 - miscellaneous items, I-42
 - Q and QS patterns, I-39
 - QRS axis deviation, I-40
 - S-T junction and segment depression, I-40
 - S-T segment elevation, I-41
 - T wave items, I-41
 - ventricular conduction defect, I-41
- information obtained on CDP patients, I-37
 - baseline and annual follow-up examination, I-37
 - baseline examination only, I-37
 - fourth and fifth initial visits, I-38
 - nonannual follow-up examinations, I-38
- introduction, I-7
- membership of CDP committees, I-6
- objectives, I-1, I-29
- sample size calculation, I-36
- selected study forms, I-50
 - admission form, I-51
 - annual follow-up examination form, I-65
 - CDP appointment schedule, I-76
 - dietary instruction sheet
 - fasting state, I-77
 - "fat-free" state, I-78
 - initial visit 3 baseline form, I-60
 - patient consent form, I-75
 - treatment allocation sheet, I-79
- study personnel, I-1
 - Central Laboratory, I-5
 - Clinical Centers, I-1
 - Coordinating Center, I-5
 - Drug Procurement and Distribution Center, I-5
 - ECG Reading Center, I-5
 - National Heart and Lung Institute (NHLI), I-5
 - other participants, I-5
 - usage of various medications at time of entry, I-29
- Coronary heart disease**
 - Coronary Drug Project, I-1
 - natural history investigation, I-19
- Coronary insufficiency**
 - diagnosis of acute, I-43
- Creatine phosphokinase**
 - analytical procedures, I-39
